Dear _____,

Executive Director
Anne C. Molgaard

On behalf of FIRST 5 Mendocino, we have made available customized brochures and posters outlining the risks and negative effects pertaining to smoking marijuana during pregnancy. FIRST 5 Mendocino is an organization that funds various programs promoting healthy early childhood development in Mendocino County, California. We have made it our priority to help reduce substance abuse and increase positive parenting. We are hoping that you will join us in our initiative to ensure that our nation's children don't fall victim to these preventable complications associated with marijuana use.

With legalization of marijuana for recreational use, we need to put an even stronger emphasis on the risks of smoking marijuana during pregnancy. FIRST 5 Mendocino is offering to customize, print, and send brochures to your public health office for distribution throughout your community. If we start raising awareness in our own local communities, it can manifest and spread from there.

The proceeds of your order will help in funding the various children's programs that FIRST 5 Mendocino has made available to our community. Thank you for your support and we look forward to making you a part of our effort to help promote awareness of using marijuana during pregnancy!

Sincerely,

A handwritten signature in black ink that reads "Anne C. Molgaard". The signature is written in a cursive, flowing style.

Anne C. Molgaard, J.D.
Executive Director
